ACADEMIC OPERATION UPDATES 17/4

The following are some key points from TNCAA forwarded by Rector in yesterday's senate with regards to OL and ODL implementation for quick sharing to all lecturers. Please take appropriate action accordingly to improve the T&L delivery.

1. Deliver teaching material packages in chunks and weekly. This will allow student to capture the lessons better in phases.
2. Plan amount of material to be delivered weekly and monitor student's ability to receive it. Take your time as we have until 23rd of August to complete the semester.
3. Let the student know a day in advance before performing online classes. This will give them time for better preparation and participation.
4. Please coordinate among lecturers about the amount of work to do for each batch of students, so not to overburden them.
5. Really monitor student's ability to participate, because participation is more importance that attendance, to make sure no one is left behind.

Stay safe & stay alert with academic information updates.
